

Portable Accumulator

- Accumulates 22.5 feet of film (15 seconds @ 90 ft/min)
- Four self-adjusting castors allow film to enter and exit the accumulator at either the top or bottom.
- Accumulator can be threaded using upper castors, lower castors or a combination of the two to accommodate any configuration.
- Self-adjusting castors compensate for misalignment of film.
- Convenient handle and base-mounted wheels allow easy movement between stations.
- Weight: 43 pounds, Height: 62"
